

Call for Papers
3rd International Workshop on Intelligent Environments
Supporting Healthcare and Well-being (WISHWell'11)
July 25th-26th 2011, Nottingham, UK.

Co-Chairs:

John O'Donoghue
University College Cork
Republic of Ireland

Juan Carlos Augusto
University of Ulster
United Kingdom

Program Committee:

Alar KUUSIK (EE)
Dale Carnegie (NZ)
Elizabeth Perkins (UK)
Eric Wade (USA)
Geoff West (Australia)
Giacomo Cabri (Italy)
Gourab Sen Gupta (NZ)
Jaume Bacardit (UK)
Jean Roberts (UK)
Joan Lasenby (UK)
Joe Gallagher (Ireland)
Mark Hawley (UK)
Mario Kolberg (UK)
Markus Helfert (Ireland)
Paul Fergus (UK)
Paul McCullagh (UK)
Rune Fensli (Norway)
Sandra Woolley (UK)
Subhas Mukhopadhyay (NZ)
Toshiyo Tamura (Japan)
Yousef Jasemian (Denmark)

Important Dates:

March 28th 2011:
First submission

April 25th 2011:
Notifications to authors

May 9th 2011:
Final version submitted

Organisation: this event will be co-located with the 7th International Conference on Intelligent Environments.

Background and Goals:

The workshop will bring together researchers from both industry and academia from the various disciplines to contribute to the 3rd year of the International Workshop on Intelligent Environments Supporting Healthcare and Well-Being (WISHWell 2011). Healthcare environments (within the hospital and the home) are extremely complex and challenging to manage from an IT and IS perspective, as they are required to cope with an assortment of patient conditions under various circumstances with a number of resource constraints. Pervasive healthcare technologies seek to respond to a variety of these pressures by integrating them within existing health care services. It is essential that intelligent pervasive healthcare solutions are developed and correctly integrated to assist health care professionals in delivering high levels of patient care. It is equally important that these pervasive solutions are used to empower patients and relatives for self-care and management of their health to provide seamless access for health care services.

Areas of interest: include, but are not limited to, the following:

- | | |
|---|--|
| <ul style="list-style-type: none">• Health monitoring from the home, office• Mobile health monitoring• Next generation telehealth/telecare• Systems to encourage healthy lifestyles• Ambient assisted living• Case Studies | <ul style="list-style-type: none">• Decision Support Systems (DSS)• Support for independent living• Support for rehabilitation• Environments supporting carers• Pervasive Technologies• Pervasive data management architectures |
|---|--|

Submission Details:

Authors wishing to participate as speakers in this event should:

- Format their papers following the main conference guidelines http://www.iospress.nl/authco/instruction_crc.html
- Submit through the online submission system that will be set up for this workshop.

Publications:

All papers accepted will be published in the proceedings of the event which will be a volume in the Book Series on Ambient Intelligence and Smart Environments which is indexed by Thomson Reuters' Conference Proceedings Citation Index, DBLP and other important Citation Indexing organizations.
